Conquering Life's Exam with Brash Confidence: A Biblical Perspective

Life, often likened to an exam, demands resilience and confidence in the face of challenges. While traditional wisdom might advocate for caution, there's a unique power in facing life's trials with brashness. In the Bible, we find guidance that encourages boldness and unwavering confidence.

Proverbs 28:1 states, "The wicked flee when no one pursues, but the righteous are bold as a lion." This verse emphasizes the virtue of boldness, portraying it as a characteristic of righteousness. Applying this wisdom to life's exam, we can find inspiration to face challenges with the assurance that a bold spirit aligns with a righteous path.

In the biblical context, boldness isn't synonymous with arrogance but with a courageous trust in one's convictions. It's about standing firm in the face of adversity, trusting in one's abilities, and facing challenges with unwavering confidence.

Life's exam often requires quick thinking and decisive action, akin to the lion's boldness in pursuing its prey. This aligns with the biblical encouragement to be steadfast in our pursuits, to face challenges head-on, and to trust that our actions are guided by a righteous purpose. Moreover, the Bible acknowledges that trials and tribulations are inevitable.

In conclusion, the biblical perspective on facing life's exam with brashness aligns with the idea that bold confidence, when grounded in righteousness, can be a powerful force for navigating challenges. So, let Proverbs 28:1 inspire you to approach life with the boldness of a lion, knowing that righteous confidence can transform exams into stepping stones toward growth and fulfilment.

Learn to be loyal

“Loyalty means nothing unless it has at its heart the absolute principle of self – Sacrifice”.

Loyalty means being faithful in giving allegiance to a person or to a cause. It is upholding certain causes. Dogs are said to be loyal to their masters.

Loyalty is traits of good character .You have to be loyal to the firm or company you are working in. Otherwise, you cannot do justice to your work. You will not be able to render your service with sincerity and responsibility.

Loyalty is much required in maintaining friendships. A friend in need is a friend indeed. Hard times are the touch stone of a friend's loyalty Each one of us expects loyalty from other people. Hence, we too have to be loyal to them in turn. However, it does not demand blind commitment. We have to be rational in being loyal to a firm, person or cause. Loyalty to one's family, school, hometown, vocation, country and above all to God, is very necessary. Unless you have some sort of loyalty, you cannot enjoy unity and peace in your active living. It makes you a fit person to a society or group. If gives you a fit personality as well.

Ms.Sasikala
Department of English

Pretty star

Arunesh Kingston
XI Jade

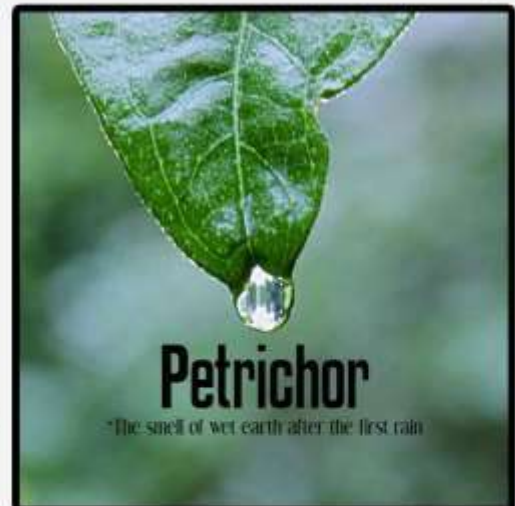

I didn't mean a star
That is so pretty
But of an average one;
That comes along my path-
Of thorns and flowers;
And guide not to the way of fall
Rather than a rope to climb.

It's a million times better-
A day with such a star
Rather than a million days
With no light.

Petrichor

Grey clouds that bring darkness;
The scent of rain drifting through the air,
The trees dancing vigorously,
Thunders and lightning playing in the sky;
As an order from heaven:
Petrichor lifting the lives of humans,
Giving them freshness, to begin with, a 'new start'.

Chrisbin Liana

Facts about English

1. "The quick brown fox jumps over the lazy dog" is an English-language pangram – a sentence that contains all the letters of the alphabet.
2. William Shakespeare had a great impact on the English language as a poet, playwright, and writer. It is believed that he was responsible for the addition of thousands of words to the English language
3. Ampersand was the 27th letter of the English alphabet.
4. English language is officially used language in the world.
5. The longest English language word is, 'Pneumonoultramicroscopicsilicovolcanoconiosis', and has 45 letters.
6. "I am" is the shortest complete sentence in the English language.

Beniel Yadid
IX Ruby

It is of practical value to learn to like yourself. Since you must spend so much time with yourself, you might as well get some satisfaction out of the relationship. You must love yourself first, and then everyone will love you. Be healthy and take care of yourself, but be happy with the beautiful things that make you 'you'.

Annette Majella

Million Thoughts

I am as daring as the warrior,
Defeating all the barrier,
Outside, I look joyful,
Inside, I look doubtful.
I think I struck inside a loop,
Like a chicken inside a coop.
I want to be as bold as a mountain,
Crossing the obstacles like a fountain,
My thoughts are about my might,
To survive till midnight.
I want to be like a sea's depth,
Mysterious and courageous,
To fight till my last breath.

Day & Night

El Nino

El Niño conditions

El Niño is a climate pattern that describes the unusual warming of surface waters in the eastern equatorial Pacific Ocean. During El Niño, trade winds weaken. Warm water is pushed back east, towards the west coast of the Americas. El Niño means little boy in Spanish. South American fishermen first noticed periods of unusually warm water in the Pacific Ocean in the 1600s. The full name they used was El Niño de Navidad because El Niño typically peaks around December.

El Niño can affect our weather significantly. The warmer waters cause the Pacific jet stream to move south of its neutral position. With this shift, areas in the northern U.S. and Canada are dryer and warmer than usual. But in the U.S. Gulf Coast and South east, these periods are wetter than usual and have increased flooding. El Niño also has a strong effect on marine life off of the Pacific coast.

My Dream World

My dream is a world where people don't judge each other with their financial status. A world where you don't get judged by the number of digits in your salary, a world where you are respected for your individuality and uniqueness and not by how much you earn.

If a world like this existed, then people would not be ashamed in front of those who earn more than them. Students would choose any major they want without worrying about its scope when it comes to a career. Many students today are forced by their own families to learn subjects they are not interested in. It is just because professions related to those streams pay a lot.

Many people are discouraged from achieving their passion because their dream job might not pay much and they are afraid of hearing other's judgments. No one cares about your attitude when you are rich.

People will love and respect you just for your money. Even though this adoration is fake, only the rest of the world i.e. the people who are earning less will know the pain of this privilege.

Talents are getting ignored just because someone is not wealthy. In many fields, the children of rich and eminent people have the chance of reaching greater heights. Others are just neglected and are unrecognized.

A world like this can exist only in fiction. Instead of complaining about the world we live in, we all should be better humans by not judging others by how much they earn and treating people equally.

Sky

**Above us stretches the boundless sky,
A canvas of wonder, so vast and high.
It paints a picture with hues so grand,
And an excellent piece crafted by nature's hand.
In the morning, it blushes in gentle pink,
As the sun awakens, its warmth does sink.
The clouds float like dreams, soft and light,
And a breathtaking scene with pure delight.**

Value Your Time

To realize the value of three years,

Ask a graduate.

To realize the value of one year,

Ask a student who has failed the final exam.

To realize the value of nine months,

Ask a mother who gave birth to a stillborn.

To realize the value of one month,

Ask a mother who has given birth to a premature baby.

To realize the value of one week,

Ask an editor of a weekly.

To realize the value of one minute,

Ask a person who has missed the train

To realize the value of one second,

Ask a person who has survived an accident.

Time waits for no one: don't waste it.

PHYSICS WONDERS

The Science of “Dead Sea”

Nature’s way of proving that physics is cool is shown in a way of Dead Sea which is one such marvel. Known for its density because of the presence of salt in this sea, a person can easily float in the water without drowning. So, you don’t have to be a swimmer to enjoy the Dead Sea.

The fact about touch screens:

The screens of smartphones work due to the electric charges leaving our fingers. They work due to the physics behind the human body itself. When we touch the screens with our fingers, we let out a small number of electric charges that register with the mechanics and allow us to interact. For this reason, things like rubber, fingernails, and others don’t register.

How does a pen write?

Whether at your workplace or school, the ballpoint pen is your weapon. If there were no physics, you would hardly be able to write on paper with a ballpoint pen. Here the concept of gravity comes into play. As your pen moves over the paper, the ball turns, and gravity forces the ink down onto the top of the ball, from where the ink continues to transfer to the paper.

Fictional World

**A time when everything seems possible,
Away from all of the world’s stress and anxiety,
A fictional world that is entirely my own,
Where I rule, and others bow,
Sometimes quite the opposite,
But still far away from all the worldly pressure,
Each day, a story unfolds,
From the corners of my mind,
That has never been explored,
All until I wake up,
And realize it’s been a dream all along!**

தமிழர் திருநாள் பொங்கல்

கட்டுரை

முன்னுரை :

தை பிறந்தால் வழி பிறக்கும் என்ற நம்பிக்கைக்கு ஏற்ப ஒவ்வொரு தமிழரும் கொண்டாடும் தமிழர் திருநாளே பொங்கல் திருநாள்.

பொருளுரை :

பொங்கல் பண்டிகைக்கு முதல்நாள் கொண்டாடப்படுவது போகிப்பண்டிகை. வீட்டை சுத்தம் செய்து வண்ணம் பூசுவர். பழையன கழிதலும்; புதியன புகுதலும் போகிப் பண்டிகையின் சிறப்பு ஆகும்.

பொங்கல் பண்டிகை :

சூரியனுக்கு நன்றி தெரிவிக்கும் நாளே பொங்கல் பண்டிகை. உழவர்களின் உழைப்பால் விளைந்த பொருட்களைப் படைத்து புதுப்பானையில் பச்சரிசி இட்டு பொங்கலிட்டு பால் பொங்கும் போது பொங்கலோ பொங்கல் என மகிழ்ச்சியுடன் ஓசை எழுப்புவர்.

மாட்டுப் பொங்கல் :

பொங்கலுக்கு மறுநாள் மாட்டுப் பொங்கல் கொண்டாடப்படுகின்றது. மாடுகளுக்கு நன்றி கூறும் வகையில் மாடுகளைக் குளிப்பாட்டி அலங்கரித்து வழிபடுவது தான் மாட்டுப்பொங்கல்.

முடிவுரை :

தமிழர் பண்பாட்டை வெளிப்படுத்துவது பொங்கல் திருநாள் ஆகும்.

அக்ஷயா

சிறுமைகளைச் சவாலாகக் கொண்டவர் சர். ஐசக் நியூட்டன்

'புவி ஈரப்பு விசையின் தன்மையைக் கண்டறிந்த பெரும் அறிவியல் மேதை 'சர் ஐசக் நியூட்டன்' 'சர்' பிரிட்டிஷ் அரசால் வழங்கப்பட்டது. நியூட்டனின் மூன்றாவது விதி, 'ஒவ்வொரு செயலுக்கும் ஒரு எதிர்செயல் உண்டு' அவை இரண்டும் சமமானதாக இருக்கும் என்ற உண்மையை உலகிற்கு எடுத்து உரைத்தவர்.

7 மாதத்தில் பிறந்த குழந்தை ஐசக் நியூட்டன். சிறிய உருவம், பஞ்சு போன்ற ஒடுங்கிய உடல்வாகு. உடல் பலவீனத்தால் சரிவர கல்வி கற்க இயலாத நிலை. ஆனால் சிந்தனைத்திறன் அதிகம் உடையவர். 'ஆப்பிள் மரத்தடியில் விளையாடி விட்டு சோர்ந்து உட்கார்ந்த போது தன் மீது விழுந்த ஆப்பிள் பழம் 'புவி ஈரப்பு விசை' என்ற விழிப்புணர்வை நியூட்டனுக்கு ஏற்படுத்தியது. இதிலிருந்து பிறந்தவை தான் 'நீயூட்டனின் விதிகள்'.

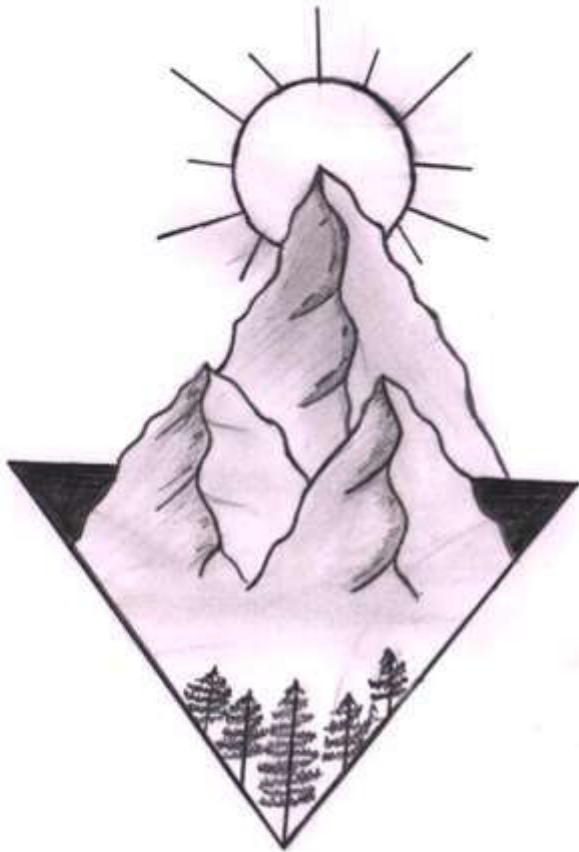

மிகவும் உடல் பலவீனமான குழந்தைகள் கூட தங்களுக்கு உள்ள சிந்தனை மற்றும் ஆக்கத்திறனைப் பயன்படுத்தி அறிவியல் மேதைகளாக உருவாகலாம் என்ற கருத்தினை மாணவச் செல்வங்களுக்கு உணர்த்தலாம் அல்லவா?.
